

**SOUTH CAROLINA PUBLIC SERVICE AUTHORITY (The “Authority”)  
SANTEE COOPER  
GRID RESILIENCE GRANTS (GRG)**

**1. Technical Scope of Work Definition**

In developing the proposed Program, Santee Cooper sought to enable and encourage innovative thought and creativity on the part of those who propose subaward grant projects while simultaneously ensuring a dual focus on the goals of the Bipartisan Infrastructure Law (BIL) and the needs of South Carolina, as outlined in its Hazard Mitigation Plan.

Referencing the BIL and the Hazard Mitigation Plan, Santee Cooper has identified a set of Program-level objectives for GRG Year 1 and 2 allocations. These objectives enable a range of project types and outcomes that will support achieving the overall Program Objectives.

Santee Cooper’s proposed GRG Program objectives are fully aligned with the goals articulated in the program purpose of the BIL and the following m-management training programs that serve all workers,

underrepresented or historically excluded)  
partner with a training provider (labor, community college, etc.)”  
an appropriately credentialed workforce (i.e., requirements for appropriate and  
al training, certification, and licensure)”

are to make meaningful progress in one or more of the following ways:  
urable improvements in energy resilience in the South Carolina grid and mitigate

d grid infrastructure that can enable consumer access to lower-cost energy and  
ased electrification, increased penetrations of variable renewable electricity and  
esources, and other evolving system needs over the coming decades!  
gy and decarbonization solutions in keeping with the federal administration  
an energy by 2035 and net-zero economy-wide greenhouse gas emission by

jobs with the free and fair choice to be a part of a represented workforce as

er the principles of equity and justice in alignment with the Administration’s

ve impact on underserved communities or disadvantaged populations!

ul of the need to strike an effective balance between meeting the needs of the  
stakeholders and maintaining the cost-effectiveness of the grant monies  
ria will tend to favor medium to larger projects that can deliver stakeholder  
ad as a proportion of the total spend. We will remain open to proposals of any  
Program benchmark related to material impact delivered as a percentage of

**2. Program Objectives**

Using the overall Program Objectives discussed above as the foundational requirements for any proposal, Santee Cooper seeks proposals from qualified respondents for subawards that deliver against one or more of the following project objectives. The example projects and associated metrics for each objective listed below are not all inclusive and represent examples of project concepts that may qualify for funding under this program.

Prime Recipient is a “non-Federal entity,” e.g., a State, local government, Indian tribe, Institution of Higher Education, or nonprofit organization. Subawards should conform to the terms of the prime award from which they flow; in other words, for-profit Prime Recipients are not required to flow down these Buy America requirements to subrecipients, even if those subrecipients are non-Federal entities as defined above. Conversely, Prime Recipients which are non-Federal entities must flow the Buy America requirements down to all subrecipients, even if those subrecipients are for-profit entities.
